REACH Information from Elektrisola

Dear customer,

REACH (**R**egistration, **E**valuation and **A**uthorization of **C**hemicals) in Europe asks for registration of chemical substances in Europe after December 1, 2008. Polyimide Tubing is not required to be listed, as it is considered as an "article", not as a chemical substance.

ECHA (**E**uropean **C**hemicals **A**gency) has proposed enclosed list of chemicals, which should not be contained in articles of above 0.1 % (w/w) content. Hereby Elektrisola declares that our Polyimide Tubing products fully comply with the regulation of REACH with respect to:

- i. Substances of Very High Concern (SVHC)
205 Substances **as of 16th Jan 2020**
(<https://echa.europa.eu/candidate-list-table>)
- ii. Authorization List, the list of substances included in Annex XIV of REACH
43 Substances **as of 16th Jan 2020**
(<https://echa.europa.eu/authorisation-list>)
- iii. Restriction List, the list of substances included in Annex XVII of REACH
70 Substances **as of 16th Jan 2020**
(<https://echa.europa.eu/substances-restricted-under-reach>)

as published by ECHA until today.

All suppliers to European Elektrisola factories are in correspondence with REACH, so no problem of supply should occur.

Please contact us should you have any questions, or if we can be of further assistance.

Leonel Klassen
